

About TANGORIUM

TANGORIUM is a tango-fusion show for Symphony Orchestra, solo Clarinet & Accordion, and video projections—created and performed by Bridge & Wolak. It pays homage to intimate Tango classics of the 1930s, through Piazzolla’s Tango Nuevo, to original epic symphonic tango-fusions—

fusing Classical, Cabaret, Rock, and Heavy Metal music with Tango, in new original compositions. These steamy musical collisions are expressed in the emotionally provocative and sensual language of Tango, enhanced with on-screen films, animations and shadow-puppetry. TANGORIUM's music was custom-created by renowned Canadian composer Charles Cozens and Bridge & Wolak.
